

About Kid Magic

Kid Magic has been offering quality educational programs in Bellevue for over 20 years. All programs provide an environment that allows each child to maximize his/her unique abilities.

The director and founder of Kid Magic is Gail Nordstrand, a Washington state certificated teacher with an extensive background in elementary education. She holds a BA in Education, a MA in reading, and has years of experience teaching preschool through fifth grade as a Reading Specialist.

Gail also taught full day kindergarten for several years in the Bellevue School District and currently directs/teaches the programs at Kid Magic Center.

Location/Directions

Kid Magic Center is conveniently located in Bellevue Washington; we are tucked away just off Bel-Red Rd in back of the Continental Business Park. Look for the picket fence and the garden space we share with the local bunny!

Early Start

After School Reading Program

For Kindergarten And First Grade

A Successful Start In Reading

Because reading is the foundation of learning it is important for children to be successful. One of the best ways to ensure proficiency is to start early as a young learner and build a strong base of the skills required to read.

The Early Start Reading Program offers beginning students a balanced approach when learning to read, using both phonics and sight words. Classes are designed to build and strengthen the reading skills of young learners in kindergarten and first grade with weekly instruction, homework, and reading practice.

Reading Is The Foundation Of Learning
Give Your Child An Early Start

About Our Program

Reading skills are taught in conjunction with printing and speaking, providing an all encompassing means to early literacy development. Because all reading groups are limited in size, students get the individual attention needed to build and strengthen the skills that are being learned.

Learning To Print is also offered as a separate class from the Early Start Reading. The Learn To Print class builds a foundation of writing letters with the correct strokes so that children don't have to re-learn how to print later in school.

Class Schedule

Classes for the Early Start Reading and the Learn To Print Programs are currently offered Wednesday after school in four week sessions September through June. Class size ranges from four to six students of similar skill.

Class Times Offered On Wednesdays

2:00 PM—2:50 PM—Early Start Reading

3:00 PM—3:50 PM—Learn To Print
